

The HibouAir Air Cloud Dashboard offers comprehensive air quality monitoring and advanced data analytics through a secure, web-based platform. Track, analyze, and manage indoor air quality in real time across one or multiple locations effortlessly.

Key Dashboard Features

- Real-Time Monitoring
- Historical charts
- Alerts
- Export & reporting
- Multi-device overview

Real-Time Monitoring

Track live CO₂, PM, VOCs, temperature, and humidity with dynamic step charts and average reports.

Historical Charts

Explore long-term trends with selectable dates, ranges showing minimum, maximum, average, & threshold limits.

The HibouAir dashboard is included in both solutions
